

It has become apparent that you visited a certain facility in Gifu Prefecture on the same day as somebody who tested positive for COVID-19.

Even though you visited the same facility, it is not possible to know how much time, if any, you spent close to the person, and so we ask that you first pay close attention to your physical condition and consult your nearest Regional Health Center in the event of any irregularity in your physical condition.

In order to avoid the identification of infected persons and/or reputational damage, it is not possible for us to tell the name of the facility or the time at which the person was there. Furthermore, please understand that we will not be able to answer any inquiries.

<List of Consultation Centers (your nearest Prefectural Health Center or Gifu City Health Center)>
